

Appl. No. 09/963,819  
Atty. Docket No. CM2435  
Amdt. dated July 26, 2004  
Reply to Final Rejection of March 2, 2004

### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Cancelled)
2. (Currently Amended) ~~A device~~ The process according to claim ~~[[1]]~~ 16, wherein said device further comprises a filter, suitable for filtering a liquid present in said bathtub into a rinse-liquid for said bathtub.
3. (Cancelled)
4. (Cancelled)
5. (Currently Amended) ~~A device~~ The process according to claim ~~[[4]]~~ 16, wherein said reservoir for a rinse-liquid has a capacity to hold up to 2000 ml of rinse-liquid.
6. (Cancelled)
7. (Currently Amended) ~~A device~~ The process according to ~~any of claim 4~~ 16, wherein said device is battery powered.
8. (Currently Amended) ~~A device~~ The process according to claim ~~[[4]]~~ 16, wherein said device is a non-floating device.
9. (Currently Amended) ~~A device~~ The process according to claim 8, wherein said device comprises a means to attach said device to the bottom-surface of said bathtub.
10. (Currently Amended) ~~A device~~ The process according to claim 8, wherein said means to attach said device to the bottom-surface of said bathtub is selected from the group consisting of: a suction cup or a set thereof; a magnet attached to the bottom-surface and/or the non-floating device; and an adhesive; and combinations thereof.

Appl. No. 09/963,819  
Atty. Docket No. CM2435  
Amdt. dated July 26, 2004  
Reply to Final Rejection of March 2, 2004

11. (Currently Amended) ~~A device~~ The process according to claim ~~[[4]]~~ 16, wherein said device comprises a spray nozzle or a set thereof to apply a cleaning composition and/or rinse-liquid onto the inner surfaces of said bathtub.
12. (Currently Amended) ~~A device~~ The process according to claim ~~[[4]]~~ 16, wherein said device comprises a pumping means.
13. (Currently Amended) ~~A device~~ The process according to claim ~~[[4]]~~ 16, wherein said device is equipped with a reservoir for a cleaning composition.
14. (Currently Amended) ~~A device~~ The process according to claim 13, wherein said reservoir for a cleaning composition comprises a composition comprising compounds selected from the group consisting of surfactants, solvents, bleaches, stabilising agents, chelating agents, builder systems, radical scavengers, perfumes, dyes, suds suppressing agents, photobleaching agents, and other minors, and mixtures thereof.
15. (Cancelled)
16. (Previously Presented) A process of removing soil from the inner surfaces of a bathtub containing a liquid, said process comprising:
  - providing a static cleaning device comprising an energy storage means; a motor coupled to a pump, wherein said motor is powered by said energy storage means; a reservoir containing a cleaning liquid and a reservoir for a rinse-liquid;
  - placing said static cleaning device into said bathtub containing a liquid; and
  - actuating said static cleaning device such that said cleaning liquid is sprayed on the inner surface of said bathtub, wherein said device is a static device and uses a liquid present in said bathtub as rinse-liquid and wherein said soil has been deposited on said inner surface less than 180 minutes prior to the start of said process.
17. (Cancelled).
